NAVIBLU2 & VISIOBLU

Drive your door at your beck and call !

Visioblu

Naviblu2

Discover 2 new userfriendly and high-performance control interfaces : NAVIBLU2 & VISIOBLU.

Performing the same functionalities, offering the same visual comfort thanks to their luminous screen, they stand out with their operating and control modes.

NAVIBLU2, designed for a wall mounted installation, allows controlling the door simply at one's fingertips.

VISIOBLU, assigned to the casing, is designed to operate with a remote control, offering all the comfort of remotely controlled operations.

EASY TO CONTROL & HIGH-PERFORMANCE

NAVIBLU2 adopts a new modern and elegant style. An ideal match with the 4T console line, it has a square and light coloured design for a perfect integration in all interiors.

Its single central navigation button allows easy driving, easy adjusting and easy communicating with the door.

The backlit LCD display offers exceptional brightness and indicates the door's state in a

wink in the most universal language, that consists of pictogrammes, digits and international measurement units.

AVAILABILITY & REFERENCES

- End of March, 2013
- Price : *contact us*

NAVIBLU2 : NAV 008455
VISIOBLU : VIS 008680

VISIOBLU is designed to be installed on the casing. It is also fitted with a large LCD screen which displays the door's state in the same way as NAVIBLU2.

Equipped with an IR receiver at its base, all the functions are accessed from the S remote control.

Very basic controls are also directly accessible on the display using a inconspicuous integrated button.

- Operating mode selection :
 - » Automatic, Entry, Exit, Opened, Closed, Manual
- Opening type choices :
 - » Large opening, Reduced opening, Secured opening
- Door parameter setting (same as Naviblu1):
 - » Locking mode, speeds, forces, breakings, opening times, reduced opening adjustment, buzzer active or not, RMP function, auxiliary controls management, battery mode
- Learning of IR controls
 - » up to 20 IR keys or S remote controls
- Keyboard secured access by code
- Reseting
- Signalling and events analysis
- Historic consultation of defects and counters
